THE INN AT HARRIS RANCH

What began modestly as a family ranch in the 1930s in California's celebrated San Joaquin Valley is today the legendary Harris Ranch Inn & Restaurant, renowned showcase for homegrown Harris Ranch Restaurant Reserve Beef and Harris Farms fruits and vegetables.

The Harris family built the Restaurant in the mid-1970s, and the Inn opened soon after, thus establishing a new tradition for travelers stopping by to enjoy this unexpected oasis along Interstate 5.

The Inn at Harris Ranch is a delightful retreat built in homage to early California hacienda style. Each of the 153 rooms and suites are designed to suit the property's early California theme, and many feature views of the beautifully

landscaped courtyard and the 25 meter heated pool with three outdoor hot tubs.
